

INTRODUCING...

MEx Youth

MEx Youth is a new student-led buddy program branching from the organization **H4 Community** that helps students with Multiple Exceptionalities make friends, grow, and gain future skills.

Through organized video and/or phone calls, our student volunteers will connect with your students to play games and have stimulating conversations.

This movement was created because we're not a real "community" when others are left out. Our goal is to create long-lasting connections and to spread love.

In response to current events, this is an **ONLINE program.**

Reach us at h4mexyouth@gmail.com or <https://www.h4ml.com/> for more information or any inquiries about our program
